

# AirQC® Electrostatic Air Filter

The Clean Air People

---

*the best electrostatic filter...the best price*

## **Take a good look at the AirQC® ELECTROSTATIC AIR FILTER:**

*Examine the quality construction. You're looking at the best made filter of its type at any price. And it's made right here in the U.S.A.*

- *Precision mitered extruded aluminum assembly into perfect 90 degree tight corners. (most other electrostatic filters are notch-and-bend assembly).*
- *Galvanized expanded metal mesh (not flimsy punched tin).*
- *Poly-propylene fabric layers sandwich a 1" thick core of filtering media. (most have 1/2" filtering media instead of 1").*

### **What an AirQC filter does for YOU..(and your budget):**

- Provides breathable air...free of dust, mites, spores, dander, mold, smoke and a variety of airborne fibers.
- Saves money! Saves replacement costs of filters & saves electricity.
- Helps save your lungs! (Healthcare specialists recommend electrostatic filters for home & office.
- Saves a lot of time and hassle.

### **What an AirQC filter does for your heating/air-conditioning system:**

- Subtracts up to 95% of airborne contaminants.
- Increases heating and cooling efficiency.
- Easy to clean - just hose it off and reinstall.
- Continuous static charge by air friction grabs dust like a magnet.
- Lifetime Manufacturer's Warranty.

*AirQC filters are all made by hand. Therefore, your filter is custom made to your specifications without the custom price.*
